

Dust measuring device for comparing the dust formation of powders and bulk materials

Benefits

- High information content with respect to bulk material dust behavior
- Ideal tool for quality assurance when handling with powdery goods
- DustView II based on CIPAC MT 171.1
- Fully automated, reproducible measuring process
- Fully automated control and evaluation using on-board PC, no need for an external PC
- Easy and intuitive operation using the touch screen
- Rapid measuring process (40 s)
- Compact and portable device
- Comparison of multiple measurements
- Individual measurements/serial measurements
- Creation of reports as PDF, text file or printout
- Reliable function
- Self-calibrating by means of automatic offset adjustment
- Automatic internal service message
- Network-compatible

Applications

- Quality control
- Product development
- Process optimization
- Occupational safety

Datasheet

<i>Parameter</i>	<i>Description</i>
Measuring principle	Extinction (30 g sample weight, 750 mm drop height)
Data acquisition	24 bit AD-converter
User interface	Touchscreen, 800 • 480 pixel, 7" (17.78 cm)
Weight	16 kg
Operating system	Windows embedded
Data logger storage	4 GB
Installation conditions	+5 - +40 °C
Interfaces	USB, Ethernet (LAN), RS232/485, Wi-Fi
Power supply	115 - 230 V, 50/60 Hz
Dimensions	Approx. 500 • 250 • 950 mm
