

# FIDAS<sup>®</sup> SMART 100 E

Due to its extended and TÜV-approved inlet, the Fidas<sup>®</sup> Smart 100 E is ideal for retrofitting in existing measurement containers - supplementary for individual fractions (PM<sub>2.5</sub> or PM<sub>10</sub> only) or as a replacement for existing systems.

## BENEFITS

- Extended inlet for installation in existing measuring containers
- Technology based on the certified Fidas<sup>®</sup> 200 series (EN16450 and MCERTS); simultaneous measurement of C<sub>n</sub>, PM<sub>1</sub>, PM<sub>2.5</sub>, PM<sub>4</sub>, PM<sub>10</sub>
- High accuracy due to advanced algorithms
- Long-term stable: up to 2 years of operation without calibration possible.
- On-site calibration with test dust (NIST traceable) is possible
- Operation with AC or DC power source
- Long-life blower for sample airflow
- Regulated aerosol heating to avoid condensation

## APPLICATIONS

- Regulatory environmental monitoring
- Construction sites
- Networks with roads, railways, and ports
- Smart City
- Occupational safety
- Industry

## FEATURES

- Smallest and lightest EN 16450-certified device on the market
- On-site calibration and adjustment (particle size and volume flow)
- Installation and operation directly outdoors without air conditioning
- Data visualization via Palas Cloud ("MyAtmosphere-ready")
- Measurement data acquisition per second
- E-version also available with extendable sampling tube for installation in a measuring container

## DATASHEET

|  |   |
|--|---|
| Measuring principle                        | Optical light scattering at single particles, 90° sideways scattering   |
| Reported data                              | PM <sub>1</sub> , PM <sub>2,5</sub> , PM <sub>4</sub> , PM <sub>10</sub> , TSP, C <sub>N</sub> , particle size distribution, ambient pressure, ambient temperature, rel. ambient humidity |
| Measurement range (number C <sub>N</sub> ) | 0 – 20,000 particles/cm <sup>3</sup>  |
| Measurement range (size)                   | 0.178- 17.8 μm  |
| Measurement range (mass)                   | 0 – 20,000 μg/m <sup>3</sup>  |
| Measurement uncertainty                    | 9.0 % for PM <sub>2,5</sub> , 9.7 % for PM <sub>10</sub> (expanded measurement uncertainty according to EN 16450, TÜV Report)   |
| Volume flow                                | 1 l/min +/-1.5% (-20 to +50°C), time-of-flight volume flow control  |
| Size channels                              | 64 (32/decade)  |
| Time resolution                            | 1s - 60s  |
| Interfaces                                 | USB, Ethernet (LAN), Wi-Fi, 4G (optional via LTE stick)   |
| User interface                             | Touchscreen 800 • 480 Pixel, 5" (12,7 cm )  |
| Protocols                                  | UDP, ASCII, Modbus, Bayern/Hessen   |
| Data logger storage                        | Approx. 6 GB data storage (2 years)   |
| Data acquisition                           | Max. 256 raw data channels (32 size channels/decade)  |
| Light source                               | Polychromatic LED   |
| Housing                                    | Polymer housing with weather protection and tripod/wall/pole mount option   |
| Operating system                           | Windows 10 IoT (LTSA)   |
| Power supply                               | 115 – 230 V, 50/60 Hz   |
| Power consumption                          | Normal operation: 15 W, max. 60 W   |
| Installation conditions                    | Operating temperature: -20 to +50 °C (weatherproof), operating humidity: 0 to 100% (non-condensing)   |
| Sampling head                              | Sigma head (non-selective passive collector)  |
| Dimensions                                 | 240 • 320 • 190 mm (H • W • D)  |
| Weight                                     | 3.9 kg  |
| Sampling system                            | Intelligent Aerosol Drying System (Compact-IADS) -Version E: extended inlet for installation in measuring containers  |
| Noise emission                             | < 40 dB(A)  |
| Resolution                                 | 0.1 μg/m <sup>3</sup>   |
| Data Management                            | Prepared for connection to the Palas Cloud MyAtmosphere ("MyAtmosphere-ready")  |

## NORMS AND CERTIFICATES
