

UF-CPC 50

The Palas® UF-CPC 50 is a butanol-based nanoparticle counter with high efficiency. It measures the number concentrations of ultrafine particles (UFP) in aerosols. Model 50 is designed for concentrations of up to 10^4 particles/cm³. Thus, it is ideally suited for measuring the lowest concentrations alone or as part of an overall system for measuring the size distribution and concentration of, e.g., synthetically produced aerosols (Scanning Mobility Particle Spectrometer / Mobility Particle Size Spectrometer).

The patented evaporator and condensation module is maintenance-free. This allows continuous operating times of up to one year - so far, unique.

BENEFITS

- Full flow analysis, no internal flow splitting
- Integrated computer with 7" touch screen
- Intuitive user interface with sophisticated software for data analysis
- Integrated data logger
- no external pump is needed
- Unlimited network compatibility that supports remote control and data storage on the Internet
- Integrated interface for process control applications
- lower detection efficiency D50 adjustable to 10 nm (others on request)

CASE STUDIES

- Aerosol research
- Combustion engine emission testing
- Brake dust emission testing
- Test of filters and air cleaners
- Environmental measurements
- Studies on working place pollution and working place safety
- Studies on inhalation and health effects
- Process surveillance
- Studies on the emission of printers

DATASHEET

Measurement range (number C_N)	10^4 particles/cm ³ (single count mode), $10^4 - 10^7$ particles/cm ³ (nephelometric mode)
Measurement range (size)	4 – 5,000 nm
Detection efficiency (at low particle size)	D50 = 4 nm oder angepasst an d50 = 10 nm
Volume flow	0.9 l/min
Data acquisition	Digital, 20 MHz processor, 256 raw data channels
Light source	LED
User interface	Touchscreen, 800 • 480 pixel, 7" (17.78 cm)
Data logger storage	4 GB
Software	PDAnalyze
Accuracy	5% (single count mode), 10% (nephelometric mode)
Response time	$t_{90} < 2.8$ s, $t_{90-10} < 2.0$ s
Operation liquid	1-butanol
Installation conditions	+10 – +30 °C (others on demand)
Interfaces	TCP-IP ASCII, MODBUS, UDP, AK (on request)
Dimensions	290 • 240 • 350 mm (H • W • D)
