

Announcement

Palas® Air Filtration Seminar 2021: Testing against the virus – progress & future developments

From September 28th - 30th, 2021 we will once again present current findings and opportunities from science, technology and research during our conference - all around the topic of infection risk, as well as the Covid-19 virus and how to control it.

Become a part of our international seminar! Be curious about discussions and contributions on current developments according to the motto "Palas® Air Filtration Seminar 2021: Testing against the virus - progress & future developments".

Register today and participate as a speaker!

We are looking forward to insightful discussions with competent experts on the following topics:

- Aerosol-borne spread and transmission of viruses
- Infection control and aerosols
- Filtration requirements to minimize the risk of infection
- Indoor air hygiene and infection risk

As last year, Professor Dr. Eberhardt Schmidt from the University of Wuppertal will moderate the diverse program.

Palas® Air Filtration Seminar 2021: Testing against the virus - progress & future developments.
